

**7th International Scientific Conference
of Young Scientists and Specialists
"PROBLEMS OF TECHNOSPHERE
SAFETY-2018" Russian Federation,
Moscow, Academy of State Fire Service,
April 10-11, 2018**

Dear colleagues!

We invite you to take part in the 7th International Scientific Conference of Young Scientists and Specialists "Problems of Technosphere Safety-2018", Moscow, Academy of State Fire Service of Emergency Situations of Russia, April 10-11, 2018

Objectives of the conference

- create a platform for the formation of creative communications and the exchange of experiences between young researchers and professionals in addressing the issues of technosphere safety;
- search for common areas in the field of scientific research and the strengthening of cooperation between young scientists and experts from universities, research institutes, government agencies and industry;
- discussion of the development of scientific research and innovative developments in technosphere safety.

Conference organizer:

Academy of State Fire Service of Emergency Situations of Russia by the Council of young scientists and specialists of the Academy

The main directions of the conference

1. Technology and fire safety systems;
2. Problems of forecasting and emergency situations of natural and man-made, life safety, ecological safety, occupational safety and health;
3. Organizational and management issues, organization and supervision of expert activities in technosphere safety.

Important dates:

1. November 15, 2017 - January 15, 2018 - submission of articles to the Organizing Committee of the conference.
2. January 16, 2018 - February 14, 2018 - review of articles.
3. February 15, 2018 - informing the authors about the results of the review.
4. March 1, 2018 - submission of the final version of the articles for publication in the Conference Proceedings (Camera Ready).

Registration of participants and requirements for reports

Teachers, scientists, specialists, PhD students, graduate students up to 35 years inclusive are invited to participate in the conference.

All information about the registration procedure, requirements for articles, the conference program is posted on the conference website *www.ptb-conf.com*.

The articles are accepted through the information system PLATFORMA *www.cm-system.ru*.

Arrangement fee

For participation in the conference there is a registration fee. Graduate students, PhD students are free of the registration fee. Each participant of the conference receives a conference program and a CD with conference materials in electronic form.

Proceedings of the Conference

All received articles are going through "double blind" review (at least 2 reviewers). By the beginning of the conference will be published a collection of proceedings of the conference. The collection is assigned ISBN, indexed in the RINC. The printed collection of conference materials is paid separately (a preliminary order is required).
